

Together we're saving Downtown Utica's Columbia Lafayette Neighborhood; home to 40+ businesses, wonderful and historic buildings, streets, and alleys. Yes, some need restoration, but that's what we'll do - just as others have been doing!

The neighborhood opposite the AUD has been targeted for a huge hospital district. Located between Genesee and Varick Streets, and between MWPAl and the AUD, would all be erased... For 80,000 ER visits a year? 20-acres of surface parking? A 1,650-car parking garage? Maybe a 2nd garage? We say "No!"

You can help! First understanding we love Downtown Utica and our goal is to preserve it. Yes, healthcare is vital, but better accomplished at Utica College and St. Luke's - see page 7. An inner-city hospital district would destroy our small-scale city- just as our downtown neighborhoods are returning to life! The New Downtown Utica brand has companies - people - families returning to work, relax, shop, to call downtown home. An out-of-place, huge box, and sea of hospital parking will not help!

On Facebook? Please join our group **#NoHospitalDowntown**. We're also on other social media platforms along with "Better Utica Downtown". Many have called and written letters to the Utica Observer-Dispatch, perhaps you will too?
